## Graduate – Environment Advisor

**Mount Isa Mines Copper – North West QLD**

**Job Ref: GRADENV21**

**Glencore Copper Assets has a number of opportunities opening to graduating or recently graduated university students to join our Environmental Graduate Program. You will be an important part of a global company that wants you to succeed, not just for the benefit of the organization but also so you can achieve your own career goals.**

As a Graduate Environmental Advisor, you will be given a unique opportunity on behalf of our mine sites to assess, implement and manage processes for minimising the effects of human activities on the natural environment. While applying your specialist knowledge and skills, you will further build your professional expertise together with an experienced and driven team to develop robust environmental management systems, conduct environmental impact assessments and actively work to control all forms of pollution.

### About the Role

As a Graduate Environmental Advisor, undertake duties such as noise and vibration control, ground and surface water management, air quality control, waste management and rehabilitation of disturbed land. You will have the opportunity to gain valued experience in environmental monitoring and project management rotating throughout the different working areas. Joining a team of environmental professionals will allow you to learn from the best, whilst you assist in optimising program strategies and implement industry best QA/QC protocols, collate and analyse environmental monitoring data to quantify performance, complete technical reports and provide overall support to the environmental team in managing key improvement projects. Start your environment career with Glencore!

### Why choose Glencore?

With operations across the globe, there is a world of opportunities waiting for you at Glencore. Glencore provides unrivalled career and development prospects, great communities and the opportunity to work with leaders in your field. As part of Glencore's Graduate Program, you will:

- Receive structured, professional development with a real focus on-the-job experience;
- Have scheduled networking and social events with other graduates and members of the senior management teams;
- Be mentored by experienced professionals in your field and receive practical support from business leaders;
- Attend a structured Graduate Professional Development Program designed to accelerate your leadership potential; and ultimately
- Be assisted to achieving your chosen career trajectory, with many of our graduates going on to become leaders in our business.

### The successful applicant will have:

- A Bachelor of Engineering (Environmental), Environmental Management, Ecology or similar.
- Have graduated from university within the last 2 years

## Benefits

You will be entitled to a comprehensive range of benefits aimed at attracting and retaining our most valuable asset, our people. We offer competitive remuneration and other financial benefits like housing assistance, relocation, three month's transit accommodation and access to numerous discounts. While it is easy to focus on remuneration, other benefits include training and development, ambassadorship opportunities, health and lifestyle, recognition and reward programs as well as lifestyle rosters.

## Locations

- **Mount Isa, North West Queensland (Residential).** Mount Isa Mines has the largest network of tunnels in the world >500km accesses every day, routinely mining stopes in excess of 200kt. Mount Isa is a thriving city of 23,000 acting as a hub for regional business, transport, services and government in north-west Queensland. With every sporting club you can think of, golf course, restaurants, gyms and movie theatre, there is always plenty to do. Explore the region with some of the best fishing and camping locations right at your doorstep. Residential roles will also attract relocation assistance, three months' transit accommodation, as well as housing assistance.
- **Cloncurry, North West Queensland (Residential/DIDO from Mount Isa).** Situated 150km from Mount Isa, and 38km from Cloncurry, you have the option of Residential Cloncurry or DIDO from Mount Isa, staying in camp accommodation whilst on roster. Cloncurry is one of north-west Queensland's agricultural and mining centres, with a population of just under 3000. As a social hub for the region Cloncurry is host to events including rodeos, races, cultural festivals, community markets and much more. The Ernest Henry Mining Village offers a wet and dry mess, well-equipped gymnasium, a swimming pool and sporting fields. Residential and DIDO roles will also attract relocation assistance, three months' transit accommodation, housing assistance and additional allowances.
